

Dentistry Worth Smiling About

Dr. Gloria Ospina from Gables Perfect Smile is not only enhancing lives but also transforming the concept of modern dentistry. With a stylish and progressive office located in the heart of Coral Gables, the doctor and her team remain at the forefront of dental technology by continuously training, getting certified in the latest techniques and using the most advanced equipment available.

With over 20 years of experience, Dr. Ospina places a strong focus on implants, laser and esthetic dentistry. She's had her own private practice in Miami,

Florida since 1994, has earned a fellowship with the International Congress of Oral Implantologists, as well as completed the advanced 20/20 Oral Plastic Surgery course using Waterlase MD technology. Dr. Ospina is a skilled architect who designs individualized treatment plans to restore optimum function and appearance to any smile. Her specialty training makes her an expert in all areas of restorative dentistry including bridges, crowns, dental implants, dentures, full mouth reconstruction, TMJ disorders and veneers.

Having a mutual passion for surgery as well as esthetics, Dr. Ospina implements an original

approach at Gables Perfect Smile and sees patients from initial consultation all the way to the end of their treatment. She works alongside a specialist and fuses regular dentistry and surgery. This results in an added convenience for patients who only have to visit one location, fewer times, with a doctor and a team that have comprehensive knowledge over the entire treatment and its progress. For patients who prefer additional privacy or need added flexibility, Gables Perfect Smile can accommodate and open the office exclusively for them, as well as stay open after regular business hours.

Dr. Ospina has also received a patent for her Gummy Smile Treatment. This allows her and her team to perform complete smile makeovers using a unique process that accelerates healing and is practically painless. In combining several cosmetic dentistry and restorative options, as well as using Invisalign and teeth whitening treatments, patients are assured an experience and results like none other. That is why MicroDental Laboratories recognized Dr. Ospina's commitment and passion for beautiful, healthy smiles and honored her as the 2016 Macstudio Model Search Miami Region Winner.

"My goal is to understand your expectations, that is why I listen and get to know you better in order to fully understand and address the steps that will lead to your perfect smile." Dr. Gloria Ospina
